Limited Lifetime Warranty

WHO IS COVERED:
This warranty covers only the original retail purchaser of the Black & Decker Paper Shredder who submits the warranty registration card within 90 days after purchase. This warranty is not transferable.

HOW LONG DOES COVERAGE LAST:
For cutter blades: Lifetime – as long as you own the product
For all other parts: One year from the date of original purchase

WHAT IS COVERED:
Any defect in material or workmanship of your Black & Decker Paper Shredder

WHAT IS NOT COVERED:
This warranty does not cover damage due to misuse, abuse or accident such as:
• failure to maintain the product as provided in the Black & Decker Paper Shredder Instruction Manual
• commercial use
• improper or unauthorized repair or service
• fire, flood, “acts of God” or other contingencies beyond the control of HoMedics.

WHAT HOMEDICS WILL DO:
Repair, and if not possible, replace your Black & Decker Paper Shredder with a new or reconditioned model of the same type. If the model has been revised, you will receive the most current model.

HOW TO GET SERVICE:
Visit our website at www.blackanddeckershredders.com or call the toll free customer service line at 1-800-297-5028.

THE DURATION OF ANY IMPLIED WARRANTY OF MERCHANTABILITY IS LIMITED TO ONE YEAR. HOMEDICS SHALL NOT BE RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE PURCHASE OR USE OF THE PAPER SHREDDER. Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Never shred plastic (except credit cards), any hard materials, continuous forms, newsprint, or anything with adhesives including labels and envelopes. While this shredder will shred staples, it is recommended that you remove them whenever possible to extend the life of your shredder.

Only shred credit cards by feeding them vertically within the designated area. Never feed more than one credit card at a time.
Thank you for buying a Black & Decker paper shredder. Black & Decker paper shredders have become the benchmark for innovation, performance and quality to protect against identity theft.

Thank you for buying a Black & Decker paper shredder.

Identity theft. We have taken great care in designing and engineering a product to meet and exceed your needs.

Setup
- Mount the shredder securely to the base. This shredder features a safety power cut off and will not operate if the shredder is not properly attached.
- A socket-outlet should be near the equipment and be easily accessible. Connect the power cord to any standard 120 volt AC outlet.

Setup
- Mount the shredder securely to the base. This shredder features a safety power cut off and will not operate if the shredder is not properly attached.
- A socket-outlet should be near the equipment and be easily accessible. Connect the power cord to any standard 120 volt AC outlet.

Operation

HOW TO USE YOUR SHREDDER
1. Place shredder head onto bin. Button on side will pop into place securing the head onto the bin (fig 2).
2. Slide safety shield to the open position (fig 3).
3. To empty bin, depress release button and remove head. Shreds should be emptied into separate waste bin. ALWAYS unplug before emptying bin.

To begin shredding, locate the power switch (2) on the unit and select the “Auto” mode. The green LED light indicates the shredder is “On” and ready to use. Slide the safety shield (4) to the right until it clicks into place and exposes the paper feed slot.

When the “Bin Full” light (See “Product Information” section) turns on, the bin (7) is full and the shredder will not operate. Press the release button (5) on the right hand side of the shredder, and lift the shredder off of the bin. Empty the bin before reattaching the shredder.

This shredder has a 4 position power switch:
- REV: Reverse – In the unlikely event of a paper jam, the reverse setting can be used to help clear the cutters of paper that has not passed through. Never attempt to clear a jam by using the reverse function until after you have emptied the bin.
- OFF: Off—This setting turns off all features of the shredder. For safety reasons, we recommend that you leave the shredder in the “OFF” position whenever the shredder is unattended or not in use.
- AUTO: Auto—This setting allows the shredder to be automatically started by inserting paper into the shred opening. Always feed the paper in as straight as possible. When the paper has passed through, the shredder will automatically stop.
- FWD: Forward—This setting allows the shredder to run continuously.

Maintenance
Regular emptying of the bin is important to ensure the smooth operation of the cutting cylinders. The shredder will not operate when the bin is full. Regular oiling is also necessary for proper performance. It is recommended to use shredder oil every few weeks. Apply across shredder entry, then run a single sheet through.

Cleaning
Always unplug the shredder before cleaning!
- Only clean the shredder by wiping the unit with a dry soft cloth or towel.
- Do not clean or immerse shredder in water. Getting the unit wet may result in damage or malfunction to the electrical components. The shredder happens to get wet, be sure to completely dry the unit immediately with a soft cloth or towel.
- Never use anything flammable to clean the shredder. This may result in serious injury or damage to the shredder.

Troubleshooting
If you have a problem with your shredder, check the symptoms and remedies below. If you cannot solve the problem this way, contact Black & Decker paper shredders Customer Service. Do not open shredder head to attempt repair. It could expose you to electric shock and will void your warranty.

Symptom
- Shredder does not start or stops while shredding.

Remedy
- Make sure shredder is plugged in and Power Switch (1) is in the ON (–) position.
- What 30 minutes for shredder to cool down before trying again.
- Make sure that the shredder is properly mounted to the base.
- The shredder has a safety power cut off if it is not properly mounted to the base.

Paper Jam
In case of a paper jam, which may occur if the sheet capacity is exceeded or if the paper is not put in straight. To clear a jam:
- Move the Function Switch (2) to the REV (1) position. The shredder will reverse to clear the jam.
- If the shredder jams in reverse, move the Function Switch (2) to the AUTO (1) and allow it to run for about 5 seconds.
- If the jam still does not clear, unplug shredder and carefully grasp the paper and pull out slowly.
- Once the jam is cleared, plug in and move the Function Switch to AUTO (1) for continued shredding or OFF (0) if shredding is complete.

Shredder squeaks, grinds or runs below capacity.
- Check to see if bin is full. If bin is full, follow instructions under maintenance.
- Oil cutting cylinder.

Shredder continues to run for 2 or 4 seconds after shredding has been completed.
- No action required.
- This is a self-cleaning function.
